

1. Insert the CD-ROM into the CD-ROM drive. The CD will autorun. If it does not, click **Start** → **Run** → **Browse**. Browse to your CD-ROM drive, double click setup.exe, then click **OK**.

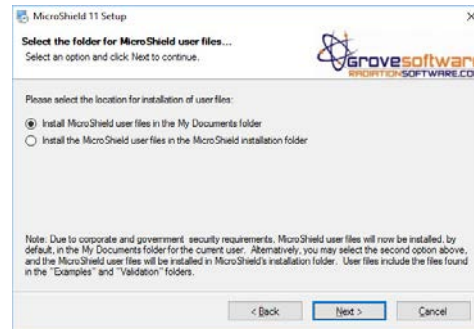

5. If you did not pre-pay for the software, you will not receive a license key and will receive the following message. Click **OK**.

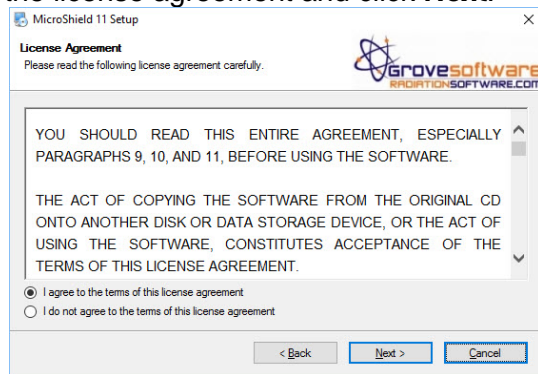

2. Click **Next** on the Wizard.

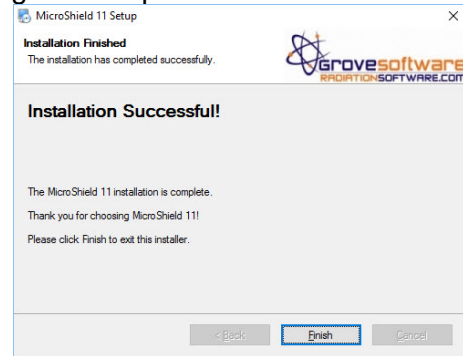

6. Click **Next** on the next several screens to start the installation. Select the location for installation of user files.

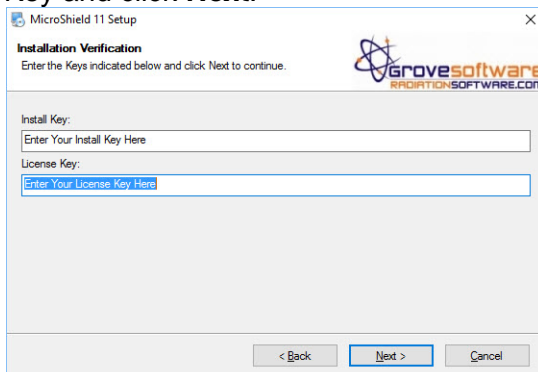

3. Click the button to accept the terms of the license agreement and click **Next**.

7. Click **Next** on the next several screens and Click **Finish** when the installation program completes.

4. Insert your name and click **Next**. Then enter the Install Key and/or License Key and click **Next**.

Troubleshooting:

- If the install key and/or the license key is not accepted, make sure that zeros (0) and capital letter oh's (O) are not interchanged.
- You must have write access to the Programs directory to install and execute the software (this may require administrator access).
